TorqTraQ®

Closure Testing Device

The World's first ergonomic hand-held torque meter

When closures are applied to packaged products, seal integrity and ease of removal are concerns in the marketplace. The ***TorqTraQ***® device serves both of these needs in an easy-to-use, cost effective, and reliable package.

<u>Robust software package</u>

- Generate reports
- Archives & organizes data
- Configure device

The ***TorqTraQ***® device uses specifically designed chucks which positively engage the closure. This unique design eliminates the variability induced by manually gripping closures and improves measurement reliability.

- Compact & lightweight
- Ergonomic design
- Reliable test measurement
- Water resistant
- Capper setup feature
